More food and much the batter le left for us to caba Meats roasted in their own juices by WIRE GAUZE OVEN DOOR

FOUND EXCLUSIVELY ON THE CHARTER OAK STOVES and RANGES.

There is not a cooking apparatus made using the Solid Oven Door but that the loss in weight of meat for from 25 to 40 per cent, of the meat roasted. In other words, a rib of beef weighing ten pounds, it coasted medium to well done will lose three pounds. The same roasted in the CHARTER OAK RANGE using the WIRE GAUZE OVEN DOOR, loses about one pound. To allow meat to shrink is to lose a large portion of its juices and flavor. The fibres do not separate, and it becomes tough, tasteless and unpalatable.
